Statistics Department

MARCH 1983

API REPORT ON NEW CONSTRUCTION AND DEACTIVATION OF SERVICE STATIONS

Based on 38 Reporting Companies

I. New Outlets Constructed: The following data reflect the number of new outlets constructed by the reporting companies and for the reporting companies by lessors:

	Total	
For January 1 through December 31, 1982	326	4.4% decrease from 1981
For January 1 through December 31, 1981	341	

II. Outlets Permanently Deactivated: The following data reflect the number of outlets permanently deactivated by the reporting companies:

	Total	
For January 1 through December 31, 1982	3,710	18.2% decrease from 1981
For January 1 through December 31, 1981	4,538	

DEFINITIONS

SERVICE STATION: A service station is defined as a retail outlet at which more than 50 percent of the dollar volume is from sale of gasoline and related automotive products.

NEW OUTLETS CONSTRUCTED: For the purpose of this report, a newly constructed outlet is defined as one that has been erected completely on vacant land or is new on the site. This category does not include complete rebuilds.

PERMANENTLY DEACTIVATED OUTLETS: Permanently deactivated outlets are those where equipment and identification have been removed, and where re-opening as a service station is no longer contemplated.
